

In-person and Virtual Event

December 6-8, 2021 January 10-12, 2022

Sessions

Radiation Oncology Part I

CEUs Applied For: AAPC, ARRT, MDCB, and AHIMA

Don't miss out on this 2-day session focusing on the challenges associated with coding, compliance, documentation and billing for external beam radiation oncology services in 2022. We'll also cover the specific medical necessity risk areas, such as IMRT, IGRT, SRS and SBRT.

This session includes the 2022 Navigator® for Radiation Oncology and the 2022 Navigators® Evaluation and Management Services for Oncology at no additional charge to be used in both Part I and Part II.

Diagnostic Imaging

CEUs Applied For: AAPC, ARRT, AHIMA and RCCB

Get up to speed on the 2022 coding changes for diagnostic radiology in this fast-paced session. Instructors will discuss common challenges in multiple modalities including plain films, ultrasound, CT, MRI, PET, nuclear medicine, and percutaneous breast procedures. Bonus topics will include Appropriate Use Criteria, supervision, orders, and more.

This session includes the 2022 Navigator® for Diagnostic Radiology.

Radiation Oncology Part II

CEUs Applied For: AAPC, ARRT, MDCB, and AHIMA

Complete your 2-day Radiation Oncology session and build upon the coding and compliance concepts addressed in Part I. This session will highlight the coding and reimbursement differences for physicians, hospital settings and specialty techniques (SRS, SBRT, proton therapy, hyperthermia, radiopharmaceuticals and IORT). In addition, you'll receive valuable insights into industry trends that affect your organization.

This session uses the same 2 Navigators® received in Radiation Oncology Part I.

Interventional Radiology Procedures

CEUs Applied For: AAPC, ARRT, AHIMA and RCCB

Fine-tune your interventional coding skills and Learn what it will take to submit accurate claims for interventional radiology services in 2022. This session will explore the 2022 coding changes, hot topics, and common IR billing errors that can lead to missed revenue and denials.

This session includes the 2022 Navigator® for Interventional Radiology Procedures.

Medical Oncology

CEUs Applied For: AAPC, ARRT, and AHIMA

This popular fast-paced session focuses on the complexities of billing for drug administration and related services. Learn how to avoid denials as you examine the latest guidance and address common pitfalls such as reporting additional hours and proper use of the drug administration hierarchy for coding.

This session includes the 2022 Navigator® for Medical Oncology Hematology and Infusion Centers.

Radiology Compliance & E/M Services

CEUs Applied For: AAPC, ARRT, AHIMA and RCCB

Protect your organization from risk and ensure accurate coding for E/M services! This session will cover requirements and restrictions related to Physician supervision, test orders, bundling and unbundling, Advance Beneficiary Notices and ensure all types of E/M visits performed by radiologists are appropriately captured at the accurate level of services.

This full day session includes the 2022 Navigator® for Evaluation and Management Services for Radiology and the 2022 Navigator® for Diagnostic Radiology Billing Compliance no additional cost.

The One Coding and Billing Conference You Can't Afford to Miss

Each Registration Includes

Continuing Education Units

2022 Reference Guide (up to \$289 value)

25% Off Purchases During Session

\$50 Coupon to Use in 2022
